Subject: SPEX-2012-0036 Briefing Questions

Good morning Mark,

I suspect that Mark Jerussi gave you an update about the questions asked at the briefing regarding the lighting application. But, I wanted to be sure that you answer the following questions during your presentation:

- 1.) Provide the reconfigured lighting proposal that would reduce the light intensity along the southern lot line for the western football field and the increase in cost of this proposal to county taxpayers. Along the same vein, another Commissioner asked if the lights could be relocated. And another asked about moving the field (see question 3).
- 2.) Define "occasional" tournaments as mentioned in Condition 2.b. How often is occasional? When will they typically occur?
- 3.) Can the western football field be moved away from the southern property line? I explained that there were wetlands north of the field that would preclude this, but I think that a follow up would be helpful.

Also, do you have any data about noise volumes during games played at the ball diamonds? What about the light levels at the property line of Briarwoods High School? I will work on these questions too.

Please call me to discuss if you have any questions.

Best,
Kate
