Subject: CORRECTION - ZCPA 2009-0010 -- Townes at East Gate Proffer Amendment

Ginny – I wanted to provide you with a written correction regarding the error in my 3/1/10 referral that we discovered at our meeting earlier today.

The second paragraph under the “Poland Road (Route 742)” heading on Page 2 should read as follows:

“Improvements proffered along Poland Road as part of the Townes of East Gate rezoning, consisting of widening the existing roadway to a four-lane undivided (U4) section from U.S. Route 50 south to approximately 250 feet south of the existing commercial entrance to PIN # 128-40-8530 (K T Associates) (depicted on the Sheet 6 of the plan set and on approved construction plans (CPAP 2005-0147)), will remain a requirement of the development and is not affected by the subject application.”

I apologize for any confusion. Please let me know if you have any questions.

Lou
